## ***Thank you for your interest in our accredited course - CPP30115 Certificate III in Urban Pest Management***

Our CPP30115 Certificate III in Urban Pest Management has been designed for Pest Technicians who are required to identify general and timber urban pests, assess pest problems, consider pest management options, develop pest management plans, liaise with customers and implement pest management strategies. In most cases, the technician will work alone and have responsibility for managing chemicals and equipment used in pest management as well as for a pest management vehicle, including the vehicle storage area.

Successful completion of this course students will have the ability to comprehensively apply their knowledge and skill across the operations of the pest business for growth. With their certification, students may apply to their state licensing authority for pest technician and timber licensing.

### **Course Structure**

Although our units are completed individually, we have grouped the units into sequential stages to align unit content, track progression, licensing, and payments.

<b>CPP30115 Certificate III in Urban Pest Management</b>	
<b>Stage 1</b>	CPPPMT3005 Manage pests without applying pesticides
	CPPPMT3006 Manage pests by applying pesticides
	CPPPMT3018 Maintain equipment and pesticide storage area in pest management vehicles
<b>Stage 2</b>	CPPPMT3017 Maintain, service and repair pest management equipment
	CPPPMT3029 Plan and schedule pest management operations
	CPPPMT3019 Organise and monitor pest management operations
	CPPCMN3004 Respond to enquiries and complaints
<b>Stage 3</b>	CPPPMT3002 Assess, advise on options, and develop pest management plans for complex or high-risk operations
	CPPPMT3043 Prepare and present pest management proposals for complex or high-risk operations
	CPPPMT3008 Inspect for and report on timber pests
<b>Stage 4</b>	CPPPMT3010 Control timber pests
	CPPPMT3026 Select pest management vehicle and equipment
	CPPPMT3007 Implement pest management plans for complex or high-risk operations
