

Timber Pest Inspector

Our **Timber Pest Inspector** course has been designed for experienced Pest Technicians or Building Inspectors to diversify their current knowledge and skills to perform Timber Pest Inspections competently and safely.

This course will cover:

- ❖ Identifying and managing commonly encountered timber pests
- ❖ Gaining skills in inspection to assess infestation, cause & severity of timber pests
- ❖ Completing reports for timber pest activity in domestic, commercial and industrial environments
- ❖ Understanding and identifying control methods and applications for timber pests, to further develop your skills when inspecting properties.

Units of Competency

- ❖ **Accredited UOC:** CPPPMT3008 Inspect and report on timber pests
- ❖ **Theoretical Module:** Timber Pest Controls

Course Entry

General entry requirements: include a Unique Student Identifier (USI) number and a Language Literacy and Numeracy (LLN) assessment (if deemed required).

Work Placement: To ensure our students can apply their training in an industry environment, Rapid Training requires all students to either be **employed** or have **pre-arranged & documented work placement***, under an accredited Timber Pest Inspector. During the placement the student must complete a logbook of **10 timber pest inspections**.

*The [Work Placement Agreement form](#), signed by the accredited Timber Pest Inspector, must be submitted during enrolment to confirm work placement.

Course Outcomes

Upon course completion, students will be issued a Statement of Attainment for the unit of competency CPPPMT3008, and a Statement of Participation for the completed module on Timber Pest Controls.

The **Timber Pest Inspector** course will help students obtain liability insurance coverage and any required licensing through your state's [licencing authority](#) (excluding QLD & WA) and your preferred insurer. Please consult with these entities prior to enrolment and upon completion.

Training, Resources & Support

All required course materials are contained on our online training portal comprising of interactive and engaging content. To provide additional support & reference, it is recommended that students purchase the textbook: "Australian Termites" and have access to the Australian Standards for Timber Pest Inspection.

Students will receive access to monthly live webinars, hosted by our industry trainers, covering a range of course topics, with time for Q&A. Ongoing **support, assistance or guidance** on our course material or assignments, is available to students through our weekly Tuesday virtual 'Student Support Hour' sessions (hosted by one of our trainers) or via direct email.

Easily accessible 24/7 online, including mobile devices.

Mode of Assessment

All units are assessed online and individually, and are broken down into:

- ❖ Theory: CPPPMT3008 Questions
Timber Pest Controls Questions
- ❖ Application: CPPPMT3008 Case Study
- ❖ Practical: CPPPMT3008 Video Assessment

Duration

Maximum Course Term: 6 months

- 50 nominal hours of training and assessment
- The course is self-paced and flexible to suit your needs
