One of the main benefits of the USI is that you will have easy access to your training records and results throughout your life.

You can access your USI account online from a computer, tablet or smart phone anywhere and anytime. A USI gives you access to your online USI account, which is made up of ten numbers and letters. To reenrol, they must complete a new application process.

If you have awarded a (NS) Not Satisfactory on your assessment, you will be granted a reattempt. You will be provided with ***three (3) attempts to demonstrate competence on each assessment*** – if time remains within the course term. Refer to [Course Extension](#) options.

By the end of the course term, if you have attempted but were not able to demonstrate competence on single or numerous assessments on the unit of competency, you will be resulted with an NYC (Not Yet Competent) and will need to re-enrol in the unit of competency.

## Rules for Grading Consistency

Assessors are responsible for ensuring that all assessments are conducted in accordance with the principles of assessment and the rules of evidence.

- **Principles of assessment** are required to ensure quality outcomes. Assessments should be fair, flexible, valid, and reliable.
- **Rules of evidence** are closely related to the principles of assessment and provide guidance on the collection of evidence to ensure that it is valid, sufficient, authentic, and current.

To ensure grading consistency, Rapid Training has the following strategies in place:

**Validation** - Consultation with industry, to:

- Meet current workplace/industry requirements
- Ensure the VET compliance with the principles of assessment and the rules of evidence
- Meet the requirements of the unit of competency

**Assessment Moderation** - assessment/question may be worded (as needed/identified) to assist the clarity of the assessment instructions.

## Reasonable Adjustment

If you are being assessed and have special needs, reasonable adjustments may be made in the assessment process. Reasonable adjustment aims to make it possible for students with an additional need to participate fully in education and training.

Even though real-life evidence will more easily demonstrate competence, we understand that sometimes it may not always be possible to collect assessment evidence in a real environment. When this occurs, your trainer/assessor may suggest you apply a 'reasonable adjustment' to the instructions e.g., a simulation. We recommend asking the Assessor for these adjustments to be send to you in an email, so you can submit it with the adjustment made in the assignment for context.

When this occurs, you must ensure you follow the following, minimum, guidelines, along with any specific instructions given to you by the trainer/assessor. Instructions must be provided in a written format e.g., on the training portal/email, verbal agreements will not be accepted.

In the evidence, ensure you include:

- Identify why the adjust was needed
- Identify how the assessment instruction has been adjusted
- Ensure you provide more verbal/written context on how the adjusted evidence shows how these skills and knowledge can be transferred to other situations, including the original assessment requirement.
- If the 'reasonable adjustment' to the instructions were on an email, upload the email to the question on the portal to provide context on the adjustment.

**Example of a simulation:**

Candidate participated in a WHS meeting

Evidence criteria:

- volume was appropriate where all can hear
- pace was moderate
- message was concise through limiting information that was relevant to discussion
- acknowledged others input by using facial expressions such as nodding
- gave eye contact to audience, etc.

## Course Durations

Our course durations (on our website) are all set to the maximum duration for the course, but students are welcome to competently complete the course earlier.

Our course terms have been calculated to ensure that the minimum hours are allocated each week and are achievable for those students completing the course around full-time working hours.

**Note:** Traineeship durations are not the same as our course durations. Traineeship terms will vary from state to state. They comprise of both the Formal (RTO) and On-The-Job (Employer) training & assessment.

## Grading Turnaround

While grading timeframes cannot be guaranteed - assessors will **aim** to grade your submitted assessment within 28 days from the assignment submission date. If grading extends beyond this point, please [email us](#) for support.

A range of factors can affect the estimated grading timeframes, and we require students to allow some flexibility, during public holidays, during the annual office closure period (December/January) – notices of these closures will be made available on the online training portal.

To avoid large influxes of grading, please assist our assessors by ensuring that assignments are completed regularly throughout the course term. Please do not submit all assignments in final weeks of the course term, as we cannot guarantee the grading will be completed prior to the course completion deadline (deadlines are advised in the welcome email and visible on assignments), or you will have sufficient time to have new assignment attempts submitted & graded.

# STUDENT PROGRESSION OPTIONS

Students are responsible to manage their own course progression and allocate the appropriate amount of time to complete their enrolled course and can track remaining days on their course on online training portal.

All though students intend to complete their courses before the designated deadline, we do understand that sometimes life throws us some obstacles that can affect course progression. Therefore, we have a couple of options for students to help them when difficulties arise:

- **Course Suspensions** - This option allows students to (temporarily) put their remaining course term on hold. This can be utilised for students who are experiencing work scheduling conflicts, injury, illness, carer leave, extended annual leave.
- **Course Extensions** - This option allows students to apply for a course term extension (at a fee). This can be utilised for students who have or are running out of time to completely complete their course assignments.

## Course Suspension:

### Guidelines for each Course Suspensions:

Students are emailed a Course Welcome notice from Rapid Training, which outlines:

- The course enrolled
- Course Start & Completion dates.

- A course completed (*graded satisfactory*)
- A student has not accessed the online training portal in more than 60 days and at 90 days

Within or prior to the final month of their course, students will be emailed a “Course Expiry Approaching” email. If a student does not complete all assessment requirements for their course, they will be sent a “Course Expired” email notifying them of the course expiry, and to submit a Rapid Training extension form within seven (7) days. If under a traineeship contract, for the application to be considered, the traineeship term must allow the extension duration requested. If contact is not made, Rapid Training will permanently close the course and email a “Notice of Course Closure”, with any Statement of Attainment required to be issued (please see [Issuance policy](#)).

# COURSE COMPLETION

## Certification Issuance

In determining whether a student is competent/or not yet competent, the student is assessed against the requirements of the qualification, including the units of competencies and the performance criteria and assessment requirements within the units of competency.

Students are issued with a VET Statement of Attainment or VET Qualification once competency has been achieved, as outlined within the Training Product. The testamur for all AQF qualifications issued will identify the qualification as an AQF qualification with the words “The qualification is recognised within the Australian Qualifications Framework”.

### Issuance of recognised qualifications or statements of attainment

Once a USI has been collected and stored into the RTO’s database, and on successful completion of training, Rapid Training will provide the nationally recognised qualification or statement of attainment to students in a **digital format**, within **28 days** of the course completion.

Below are some examples of when a nationally recognised qualification or statement of attainment can be held until the student has supplied Rapid Training with the required evidence. They can include:

- A USI that cannot be verified
- Course fees have not been paid in full
- A nationally recognised qualification – *to determine credit transfer on a Unit of Competency*
- A building industry white card – *if the assessment evidence includes a student accessing worksites where this is a requirement.*
- A stamp on their license to certify they can now drive heavy machinery – *if the assessment evidence includes a student operating such machinery.*

If you wish to request a Statement of Attainment for units completed in your enrolled course to date, please [email](#) a written request (note the above rules will still apply to any issuance).

When a student logs into their USI account it will link to the national data collection using the USI. The students USI account will then be able to see their records and results completed. This data is submitted by the RTO annually (each February), so if you have just completed your course the results may not yet appear on the USI portal until the next year. The student’s results from 2015 will be available in their USI accounts in 2016.

## Reissuance of Certification

We understand that sometime students lose copies of their certifications and are happy to arrange them with a replacement. A small administration fee of \$30.00 (incl. GST) will be charged for each certification reissued, and each instance to cover all administrative costs.

In order to maintain student privacy, all reissuance requests must be in writing and from the enrolled student. There students must complete and return our [Application for Certificate Re-issuance](#), found on our website.

## Pest Management Licensing in Australia

All pest control licensing is administrated by each state/territory's licensing authority. Pest licenses are NOT issued by Rapid Training, and license fees are NOT included in our course fees.

Individuals are required to refer to their state/territory licensing authority for pest management licensing applications, eligibilities, application fees, and course requirements. See the links below to access details on your state/territory licensing authority:
